KOLÍČKOVÁNÍ

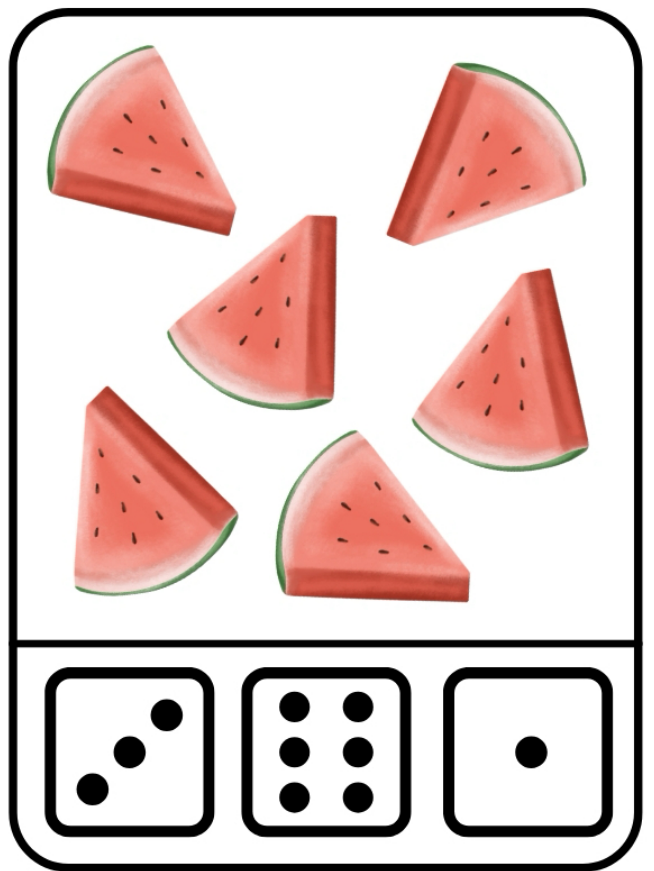

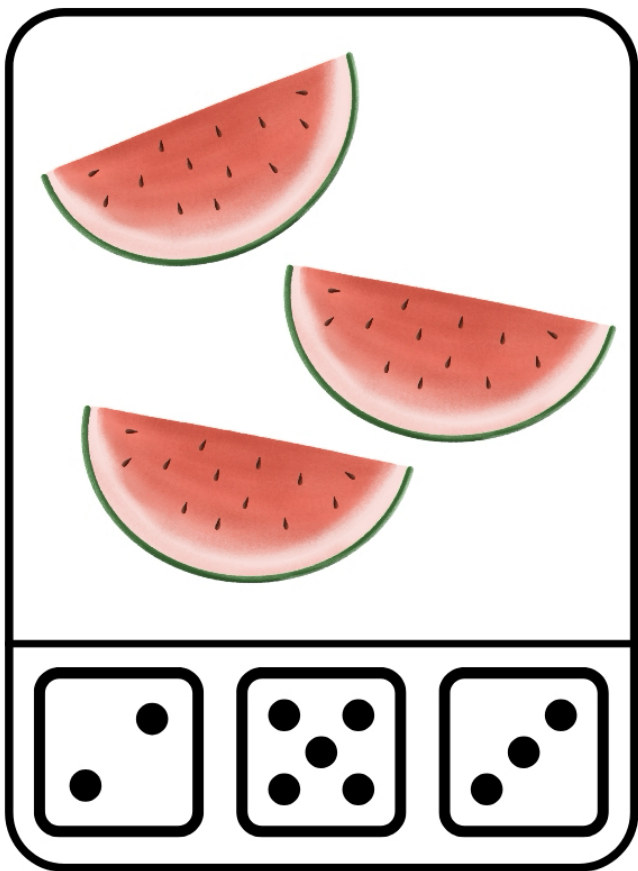

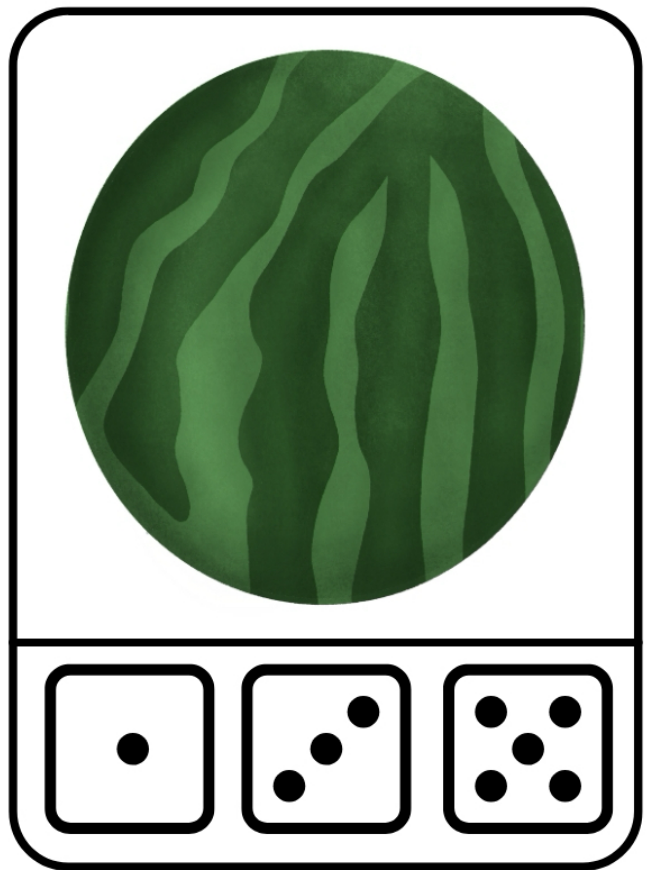

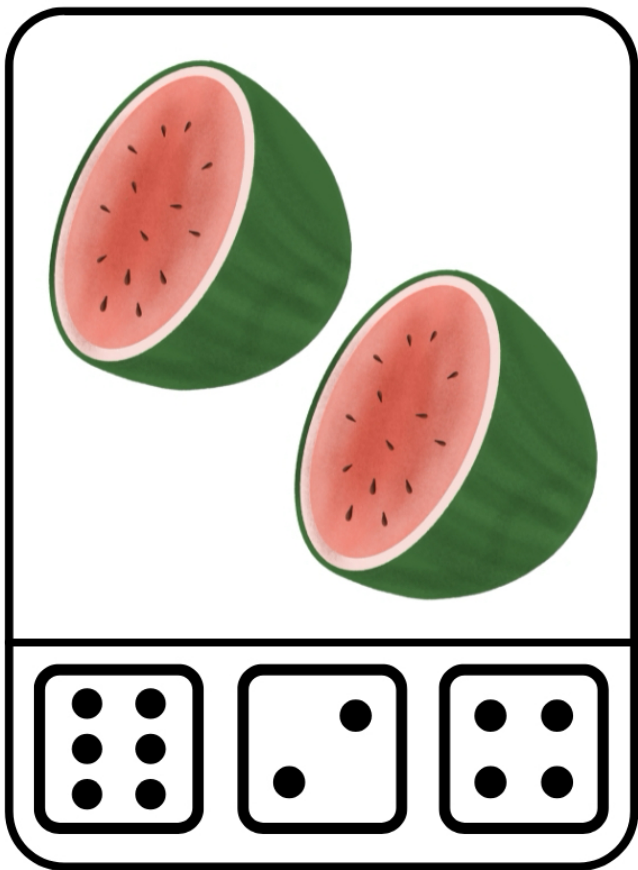

- Pro lepší manipulaci a delší udržitelnost doporučuji kartičky zalaminovat, případně vytisknout na tvrdší papír. Pokud nemáte možnost ani jednoho, obyčejný papír také postačí.
- Děti přikládají kolíček k políčku se správným výsledkem odpovídajícího počtu.
- Místo kolíčku mohou děti přikládat k výsledku kousek modelíny, korálek...

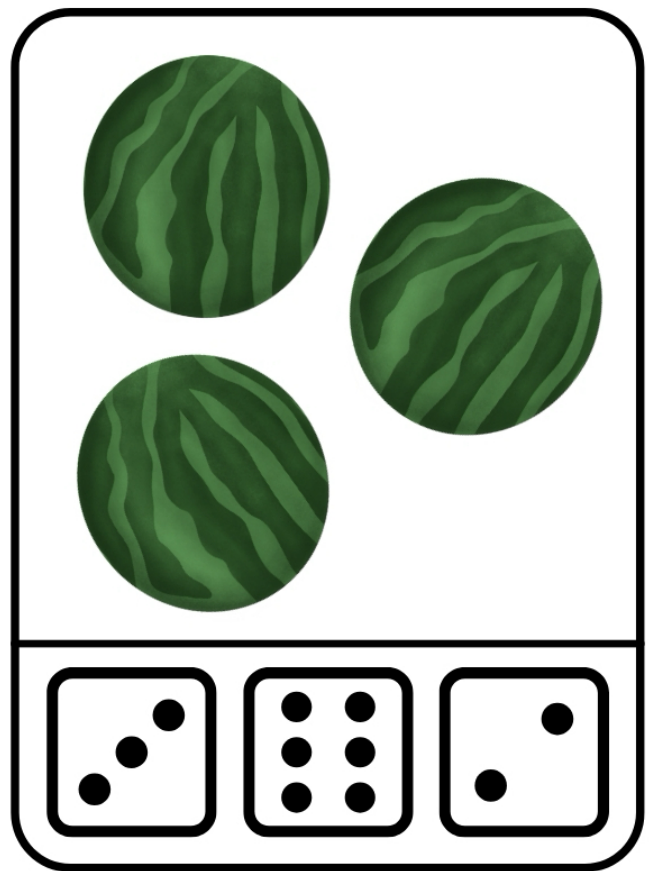

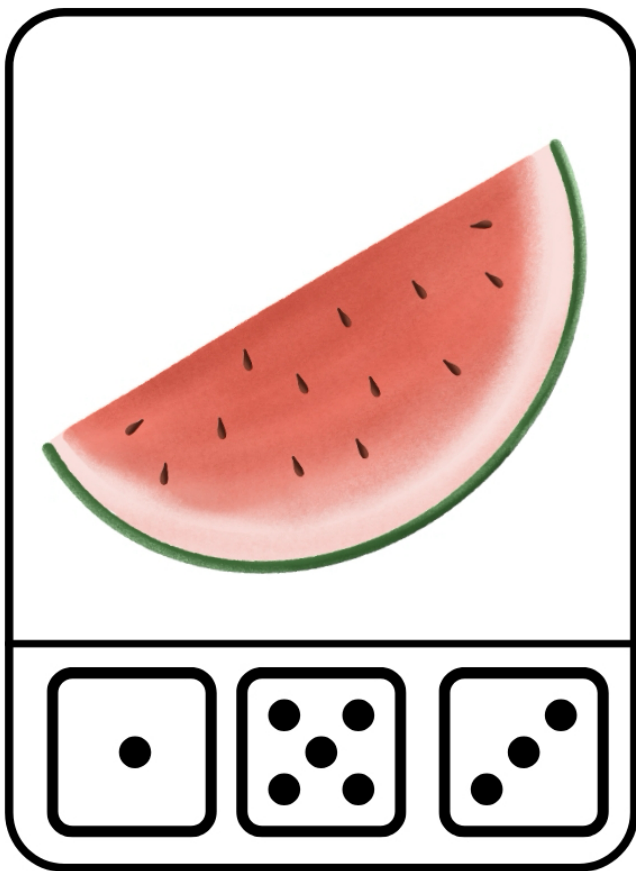

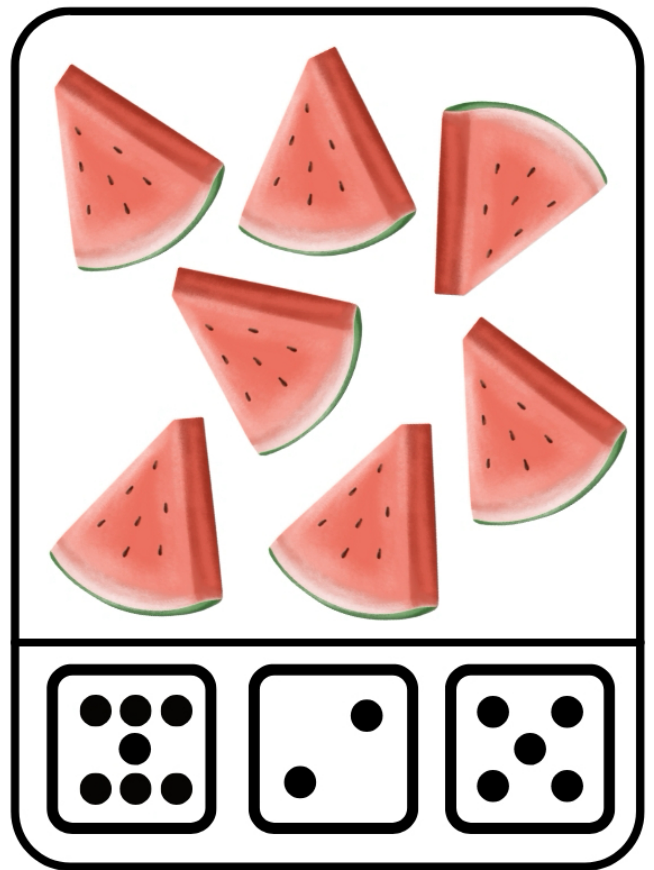

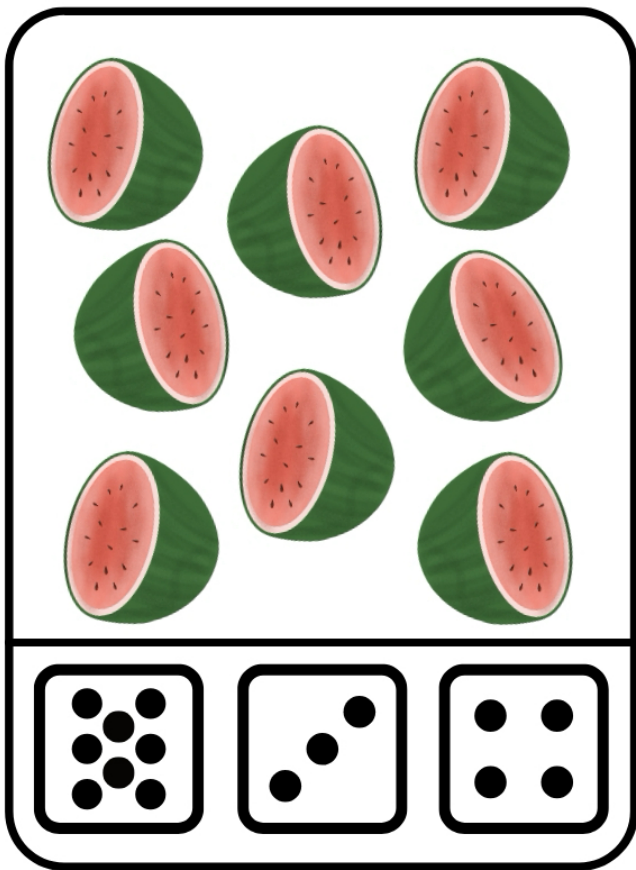

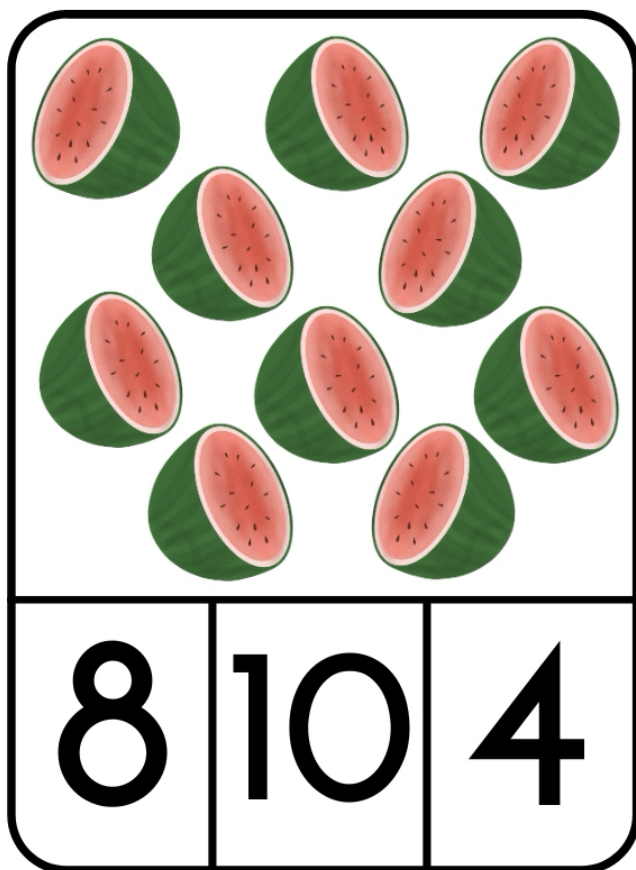

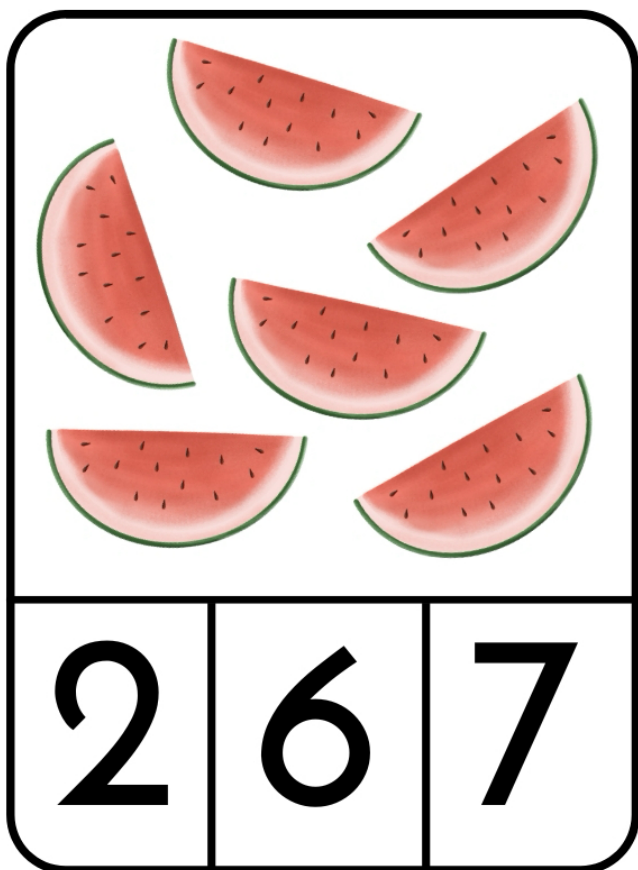

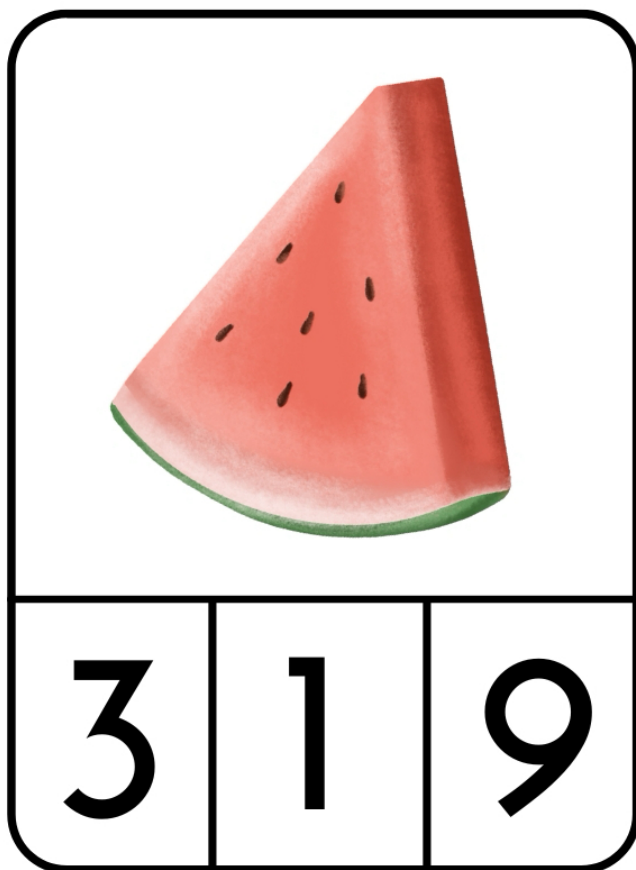

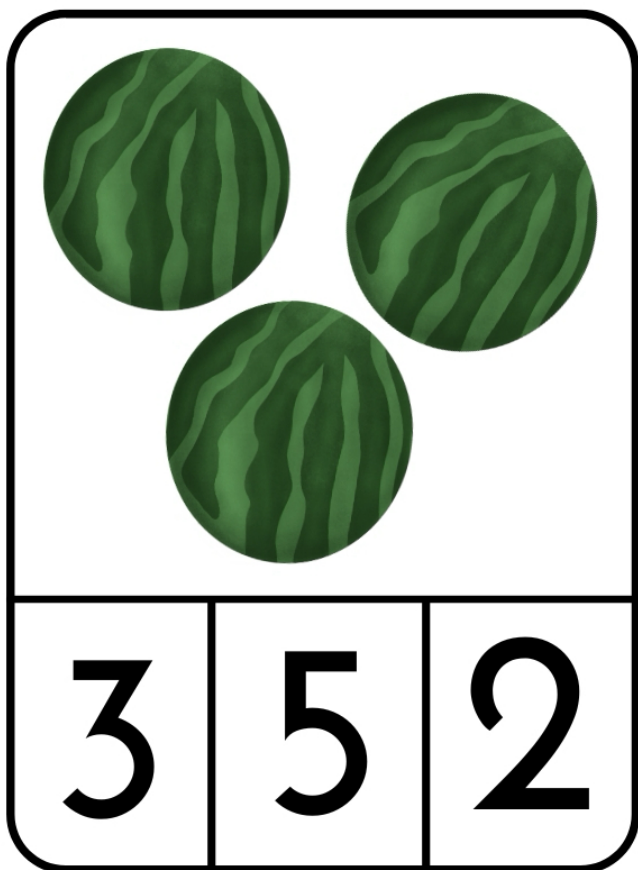

SKLÁDÁNÍ SLOV

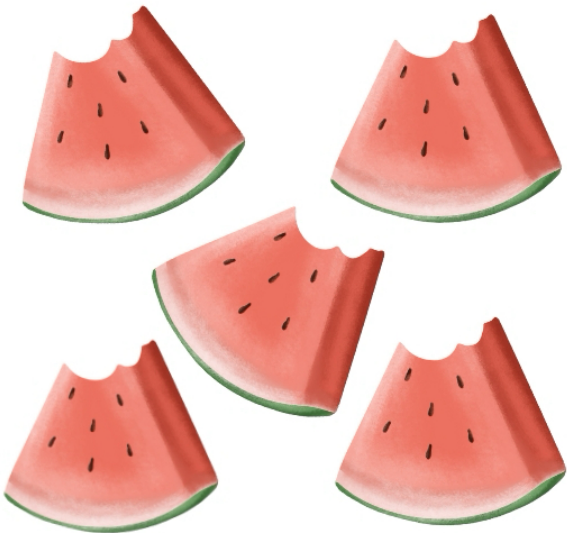

- Vystříhněte jednotlivá kolečka s písmenky a melouny se slovním zadáním.
- Písmenka rozprostřete po stole. Děti mají za úkol skládat slova podle předlohy v melounu.
- Dětem můžete také vytisknout zapisovací kartičky, do kterých si mohou zkusit napsat nápis, který složily.
- Doporučuji zalaminovat, aby aktivita dlouho vydržela. Ale není to nutností.
